**GENERAL COMMITTEE OF ADJUSTMENT – BOMBARDIER DIVISION 660
- Shop & Rail -**

January 27, 2014

Brothers and Sisters,

Many of you know that by the application of the Teamsters Canada Rail Conference Bylaws, I presently hold the positions of General Chairperson with responsibilities for both operation and maintenance, as well as the position of Local Chairperson for operations. Each of these positions comes with their own separate responsibilities. With the membership's present impressive growth in numbers, the ability for one person to properly fulfill the responsibilities of both positions has become increasingly difficult.

In order to continue to provide for the highest quality of representation, and in close consultation with the Division's elected representatives, a decision has been made to designate Vice Local Chairman Gregory Vaughan as Acting Local Chairman for Operations.

As Acting Local Chairman, Brother Vaughn will be vested with the authority of a Local Chairman and will carry out all the duties and responsibilities of that office.

Therefore, you are hereby advised effective Monday January 27th 2014, Vice Local Chairman Greg Vaughan will be acting Local Chairman with full authority of the Local Chairman's office.

This action will allow me to devote full attention to the responsibilities attached to the General Chairpersons office to better serve all of the membership.

Sincerely,

George MacPherson General Chairman GCA Bombardier Division 660
